

CURRICULUM VITAE

Abul Hasnat

Professor, Department of Clinical Pharmacy and Pharmacology,
Faculty of Pharmacy, University of Dhaka, Bangladesh
Tel : 9661900-73 (Ext. 8164), 9667850 (Res). Fax : +880-2-8615583.
E-mail : ahasnat99@yahoo.com

PERSONAL DETAILS :

Date of Birth : 30th April, 1969
Sex : Male
Present Status : Professor
Marital Status : Married
Religion : Islam
Nationality : Bangladeshi
Present Address : Department of Clinical Pharmacy and Pharmacology,
Faculty of Pharmacy, University of Dhaka.
Tel : 9661900-73 (Ext. 8164), 9667850 (Res).
Fax : +880-2-8615583.
E-mail : ahasnat99@yahoo.com

PERSONAL PROFILE:

I am a hardworking flexible and reliable person and work to the best of my ability. I am self- motivated and can work well within a team or on my own initiative. I have good communication skills which I use with people from all levels.

EDUCATION :

Ph.D. : Obtained the degree in 2002 from the Manchester University, United Kingdom.
M.Pharm. : Obtained the degree in 1990 (exam. held in 1993) securing First position in First class from the University of Dhaka, Bangladesh.
B.Pharm. (Hons) : Obtained the degree in 1989 (exam. held in 1991) securing Fourth position in First class from the University of Dhaka, Bangladesh.

SCHOLARSHIP / FELLOWSHIP/AWARDS/GRANTS :

1. Dean's Award for extraordinary achievement in B. Pharm (Hons) examination in 1988.
2. Awarded Commonwealth Scholarship by the Commonwealth Scholarship Commission, UK in 1999 for doing PhD in Manchester University.
3. Commonwealth Fellowship in Newcastle University, UK, 2009.

3. Japanese Biochemical Society Award in 2006.
4. Obtained research grants in 2003 from the Ministry of Science and Technology, Peoples' Republic of Bangladesh
5. Obtained research grants in 2004 from the Ministry of Science and Technology, Peoples' Republic of Bangladesh
6. Obtained research grants from BCSIR, Bangladesh in 2004.
7. Obtained research grants from BCSIR, Bangladesh in 2005.
8. Obtained research grants from University Grants Commission, Bangladesh in 2005.
9. Obtained research grants from University Grants Commission, Bangladesh in 2007.
10. Obtained research grants from University Grants Commission, Bangladesh in 2009.
11. Research Grant (30,000 USD) from Third World Academy of Science, Italy in 2008.

ACADEMIC POSITIONS :

- | | | |
|---------------------|---|--|
| Lecturer | : | Faculty of Pharmacy, University of Dhaka, Bangladesh, from 1st February, 1996 to 17th July, 2002. |
| Assistant Professor | : | Department of Clinical Pharmacy and Pharmacology, University of Dhaka, Bangladesh, from 18th July, 2002 to 3rd January, 2005. |
| Associate Professor | : | Department of Clinical Pharmacy and Pharmacology, University of Dhaka, Bangladesh, from 4th January, 2005 to 11th January, 2009. |
| Professor | : | Department of Clinical Pharmacy and Pharmacology, University of Dhaka, Bangladesh, from 12th January, 2009 to till date. |

TEACHING:

1. Pharmacology
2. Advance Pharmacology
3. Biochemistry and Molecular Biology
4. Human genetics
5. Pharmaceutical Biotechnology
6. Pharmacokinetics and Pharmacodynamics

ADMINISTRATIVE POSITIONS AND MEMBERSHIP IN PROFESSIONAL BODIES :

1. Member, Biochemical Society, UK.
2. Ex-Joint Secretary, Dhaka University Teachers' Association
3. Elected member of Dhaka University Senate since 2005.
4. Member, Dhaka University Academic Council
5. Member, Bangladesh Pharmaceutical Society.
6. Member, Pharmacy Graduates Association of Bangladesh.
7. Member, Dhaka University Teachers Association etc.
8. Ex-Assistant Proctor, Dhaka University, from 2002 to 2009.
9. Ex- House Tutor, Shahidullah Hall, Dhaka University, from 1996 to 1999.
10. Ex-Member, Dhaka University Tribunal elected by senate members
11. Ex-Organizing secretary, Bangladesh Pharmacy Students' Association.
12. Ex-Acting General Secretary, Bangladesh Pharmaceutical Society
13. Ex-Vice President, Bangladesh students' Society, Manchester

RESEARCH INTEREST:

1. Genotype and phenotype of CYP3A4 in Bangladeshi people. We are also working on pharmacogenetics of drug induced liver injury of tubercular patients treated by anti-tubercular drugs. We extended this work with other genes like CYP2E1, NAT2, BRCA1, BRCA2, HER2 etc in different patient groups including lung cancer, breast cancer, endometrial cancer etc.
2. Correlation between pharmacogenetics and pharmacokinetics in different patient group treated by any particular drug (medical pharmacogenetics).
3. Bioavailability and bioequivalence/pharmacokinetic study of new drugs in human model.
4. Understanding pathophysiology of different disease states especially in psychiatric disorder.
5. Kinetic analysis of different drug/drug interaction.

THESIS

1. Carried out a research for about two years (1990-92) as a part of M.Pharm. degree and submitted a dissertation entitled "Antibiotic from *penicillium* species". Dr. Abdul Jabbar, Emeritus Professor, Faculty of Pharmacy, University of Dhaka, was the Supervisor. Two papers have been published from this work.
2. Carried out a research work for more than three years (February 1999 to July 2002) during the Ph.D. programme and submitted a thesis entitled "Interaction of human thymidylate synthase with its own mRNA and other ligands". Dr Julie Andrews of the School of Pharmacy, University of Manchester, U.K. was the supervisor. Two papers have been published from this work.
3. Carried out a research for six months (October 2008 to March 2009) as a Visiting Scientist in Newcastle University, U.K. and worked with Professor Ann K. daly on 'Pharmacogenetics of DILI patients treated by antitubercular drugs'. One paper will be published from this work.
4. Main supervisor and co-supervisor of more than 40 M.Pharm students since my joining. Currently supervising 6 M. Pharm. students and 5 Ph.D. students.

SUMMARY OF PHD WORK:

Human thymidylate synthase (hTS) protein was expressed and purified from the plasmid pET28c-hTS using nickel column chromatography. Subsequently hTS protein was characterised by a spectrophotometric assay method and the molecular weight was determined by SDS-PAGE and ES-MS analysis. Unambiguous identification of the hTS protein was made with MALDI-TOF and MS-MS (tandem mass spectrometry) analysis.

It has been reported (Chu *et al.*, 1993 b) that hTS protein interacts with a 36-nucleotide segment of its own mRNA comprising a 5'-untranslated region and the AUG start codon. Therefore, we attempted to determine the binding sites of this short segment of mRNA on hTS protein and the molecular determinants of this binding. The 29 nt mRNA (within the 36 nt mRNA) was chemically synthesized and its stem-loop structure was determined by UV melting experiments. Initial gel shift assay and formaldehyde cross-linking studies demonstrated an unequivocal binding of hTS protein to this stem-loop mRNA. We also investigated this interaction using fluorescence spectroscopic analysis. The

interaction between hTS protein and 29 nt mRNA was very strong ($K_d = 7.9 \pm 1.7$ nM). Competition experiments showed that 29 nt mRNA did not interact with the FdUMP or MTX binding site (active site). So 29 nt mRNA bound to hTS protein at an alternative site.

A similar result was observed when the interaction of hTS protein and FdUMP was investigated by ^{19}F NMR spectroscopy. The presence of non-labelled 29 nt mRNA did not interfere with the ^{19}F NMR spectra of hTS-FdUMP or hTS-FdUMP-MTX complex. Further work will be required to determine the portion of the hTS protein responsible for this high affinity interaction with 29 nt mRNA.

It is expected that better understanding of hTS-RNA interactions may help fight drug resistance in cancer treatment.

TRAINING AND CONFERENCE:

1. Personal skill training in Manchester University, 1999
2. Training on use of radioactive materials, Manchester University, 2000
3. Training on hazards of genetic manipulation techniques, Manchester University, 2001
4. Completed four week courses on SPSS (Statistical Program on Social Sciences) in Dhaka University- 2003.
5. Poster presentation in Philadelphia, USA on the interaction of human thymidylate synthase with its own mRNA and other ligands, 2001.
6. Joined conference of International Pharmaceutical Students' Federation in Vienna, Austria, 1990 as a delegate from Bangladesh Pharmacy Students' Association.
7. Participated in a three-day workshop on Project Cycle Management (Asia Link Program) organized by European Commission in Dhaka on Feb 6-8, 2006.
8. Poster presentation in 20th IUBMB international congress of Biochemistry and Molecular Biology and 11th FAOBMB congress held in Kyoto, Japan on June 18-23, 2006.
9. Oral presentation in Malaysian Pharmaceutical Society Scientific conference held in Kuala Lumpur, Malaysia on 8-10 September, 2006.
10. Participated in a Biotechnology Conference in ICDDR,B Bangladesh
11. Poster presentation in Durban, South Africa held on Oct, 2009 on 'phenotypes and genotypes of CYP3A4 in Bangladeshi people' organized by Third World Academy of Sciences and South African Academy of Science.
12. Completed 2 weeks training on pharmacogenetics in Prof H. H. Zhou's laboratory, department Clinical Pharmacology, Central South University, China, in Oct, 2011.

REVIEWER:

1. Biosimilars (USA) (also Editorial Board Member)
2. Clinica Chimica Acta (USA)
3. Pharmaceutica Analytica ACTA (USA)
4. Clinical therapeutics (USA)
5. Journal of Applied Research (USA)
6. Dhaka University Journal of Pharmaceutical Sciences
7. CDR Journal

8. Pakistan Journal of Pharmaceutical Sciences (also advisory board member)
9. African Journal of Biochemistry
10. African journal of Food Sciences
11. Asian Journal of Pharmaceutical Sciences
12. Dhaka University Journal of Biological Sciences
13. Bangladesh Journal of Life Sciences

HOBBIES AND INTERESTS:

I enjoy reading, following sports, traveling and keeping up with current affairs.

REFEREES :
